Allowable Subject Matter

1. Claims 1 – 11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a wireless headset with a wireless radio communication module and a link connection method for the wireless headset.

Applicant's independent claim 1 recites, *inter alia*, a wireless headset with a structure as defined in the specification (pages 5 – 8) including a microphone supporting member; a connector coupled thereto to allow for displacement of the main body and microphone supporting member relative to one another between a folding and unfolding position; a sensing device located in the connector; and a controller connected to the sensing device and the wireless radio communication module whereas the controller being operative, if the unfolding position is determined, to establish a link connection between the wireless headset and a master terminal. Applicant's independent claim 1 comprises a particular combination of element, which is neither taught nor suggested by the prior art.

Regarding claims 3, 5, 6, 7, 8, 9 and 11, the claim are interpreted and allowed for the same reason as set forth in claim 1.

Accordingly, applicant's claims are allowed for these reasons and for the reasons recited by applicant in the amendment filed on 7/10/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
